

How we test for COVID-19

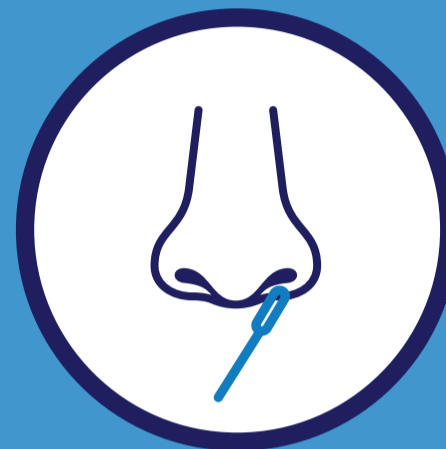

Testing for COVID-19 involves taking a swab from the back of your throat and each nostril

Throat

Left nostril

Right nostril

Tests are done by trained personnel wearing personal protective equipment

Mask

Goggles/
face shield

Gloves

Gown
(depending on
circumstance)

It may take a few days for the test results to come back.

If your test is positive for COVID-19, the NT Public Health Unit will let you know the next steps.
