Public and Environmental Health Act 2011
**COVID-19 Directions (No. 38), (No. 41) and
(No. 43) 2020 Directions for Territory
Border Restrictions –
Consolidated Version**

I, Hugh Crosbie Heggie, Chief Health Officer, under section 52 of the *Public and Environmental Health Act 2011* (the **Act**), consider it necessary, appropriate or desirable to take action to alleviate the public health emergency in the Territory, declared by instrument entitled "Declaration of Public Health Emergency", dated 18 March 2020, by making the following directions:

Part 1 Preliminary matters

- 1 These Directions take effect at 00:01 on 15 June 2020 and remain in force while the public health emergency declaration is in force.

Note for direction 1

These Directions will remain in force during any subsequent extensions of the duration of that declaration, which may be made under section 50(2) of the Act.

- 2 In these Directions:

COVID-19 hotspot, see direction 2A.

quarantine period, in respect of a person, means the shorter of:

- (a) the period during which the person is in the Territory; or
- (b) the period beginning when the person enters the Territory and ending at 12:00 (noon) on the 14th day after entry.

Notes for definition quarantine period

- 1 *A person who enters the Territory at 23:00 (11 pm) on 20 June 2020 must remain in quarantine until 12:00 (noon) on 4 July 2020.*
- 2 *A person who leaves the Territory before the end of the quarantine period and then re-enters the Territory starts a new quarantine period. The previous time in quarantine is not carried over.*
- 3 *This period applies to people who are exempt from quarantine but must practise social distancing measures for the same period.*

social distancing measures, means the measures required under direction 36.

suitable place for quarantine, see direction 3.

travel plan means a written plan for a person entering the Territory in which the person:

- (a) gives details of the route the person intends to travel in accordance with direction 16 or 30; and
- (b) identifies any planned fuel stops during the travel; and
- (c) confirms that the person has sufficient food and water to last the duration of the travel.

2A A ***COVID-19 hotspot*** is a specified area of Australia determined by me from time to time and published on the website coronavirus.nt.gov.au.

3 A place is a ***suitable place for quarantine*** for a person if the place:

- (a) is a residence or commercial visitor accommodation; and
- (b) is capable of accommodating the person in quarantine for at least 14 days; and
- (c) provides a bedroom or sleeping area for the person that is separated from any other person in the place who is not also in quarantine; and
- (d) allows the person to practise social distancing measures while being in quarantine.

Examples for direction 3

1 *A single person could quarantine at night in a separate bedroom in a house or alone in a caravan.*

2 *A couple arriving together could quarantine in the same bedroom in a house or together in a caravan.*

3A For these Directions, a person is taken to be a person who enters the Territory from a place outside Australia if the person arrived in a State or another Territory from outside Australia within 14 days before entering the Territory.

- 4 If these Directions are inconsistent with an advice, order or notice under the *Notifiable Diseases Act 1981*, the advice, order or notice prevails to the extent of the inconsistency.

Example for direction 4

A person may be ordered under the Notifiable Diseases Act 1981 to isolate for longer than the quarantine period or to undertake a specific course of medical treatment.

- 5 To avoid doubt, my COVID-19 Directions (No. 7) 2020, or any subsequent Directions that replace and substantially correspond to those Directions, apply to any person who is notified by an authorised officer or health practitioner that the person is infected with COVID-19.
- 6 To avoid doubt, these Directions do not limit a right under section 71(1) of the *Aboriginal Land Rights (Northern Territory) Act 1976* (Cth).

Part 2 Directions for declaration and screening on arrival in the Territory

- 7 Every person entering the Territory must, in a written or electronic form approved by me, declare the following information:

 - (i) whether the place where the person intends to stay is a suitable place for quarantine; and
 - (ii) the details and number of other people residing at that place;
 - (e) if the person is exempt under Part 4 – the details of the social distancing measures the person intends to take while in the Territory.

A person may also have to submit a travel plan if required under direction 16 or 30.

- 8 The form must be submitted:
- (a) to an authorised officer at the place of entry; or
 - (b) to another person, or in another manner, approved by me.
