

Northern Territory of Australia

*Public and Environmental Health Act 2011*

## **COVID-19 Directions (No. 61) 2022: Directions for infected persons and close contacts**

I, Charles Hawkhurst Pain, Acting Chief Health Officer, under section 52 of the *Public and Environmental Health Act 2011 (the Act)*, consider it necessary, appropriate or desirable to take action to alleviate the public health emergency in the Territory, declared by instrument entitled "Declaration of Public Health Emergency" dated 18 March 2020 (the **public health emergency declaration**), by making the following directions:

### **Part 1 Preliminary matters**

- 1 These Directions take effect at the time they are made and remain in force until the public health emergency declaration ceases to be in force.

*Note for direction 1*

*The period the public health emergency declaration is in force has been extended under section 50(2) of the Act. These Directions remain in force during the periods of extension.*

- 2 In these Directions:

**approved** means approved by the Chief Health Officer.

**approved COVID-19 testing procedure**, see direction 3.

**approved COVID-19 vaccine**, see COVID-19 Directions (No. 52) 2022, as amended from time to time.

**child** means a person who is under 18 years of age.

**close contact**, see direction 14.

**essential worker** means a person declared by the Schedule to be an essential worker.

**exempt**, in relation to a person, see my COVID-19 Directions (No. 52) 2022, as amended from time to time.

**health practitioner** means a person registered under the Health Practitioner Regulation National Law to practise in a health profession (other than as a student).

**high risk place**, see direction 3 of COVID-19 Directions (No. 41) 2022 (as amended from time to time) or any subsequent Directions that replace and substantially correspond to those Directions.

**infected**, see direction 11.

**isolation period**, in relation to an infected person, means the period for which a person must be isolated under direction 12, calculated in accordance with direction 4.

**quarantine period**, in relation to a close contact, means the period for which a person must be in quarantine under direction 17, calculated in accordance with direction 5.

**recognised COVID-19 vaccine**, see COVID-19 Directions (No. 52) 2022, as amended from time to time.

**suitable place**, see direction 6.

**symptoms**, in relation to COVID-19, include fever (a temperature of 37.5°C or higher), chills or night sweat, cough, sore throat, tiredness (fatigue), difficulty breathing, headache, muscle pain (myalgia), loss of sense of smell (anosmia), distortion of sense of taste (dysgeusia), nausea and vomiting, joint pain, loss of appetite, runny nose and acute blocked nose (congestion).

*Note for definition symptoms*

See <https://coronavirus.nt.gov.au/stay-safe/symptoms-testing>

**vaccinated**, in relation to a person, means the person:

- (a) has received 3 doses (in any combination) of approved COVID-19 vaccines or recognised COVID-19 vaccines; or

- (b) has received:
  - (i) one dose of a COVID-19 vaccine approved as a single dose vaccine by the Therapeutic Goods Administration, Commonwealth Department of Health; and
  - (ii) a second dose of an approved COVID-19 vaccine or a recognised COVID-19 vaccine; or
- (c) is exempt.

*Note for definition **vaccinated***

See <https://www.tga.gov.au/international-covid-19-vaccines-recognised-australia>

- 3 An **approved COVID-19 testing procedure** for a person consists of:
- (a) subject to paragraph (b), a rapid antigen test approved by the Therapeutic Goods Administration, whether or not self-administered; or
  - (b) a polymerase chain reaction test only if specified or required by the person's treating health practitioner, the Chief Health Officer or a delegate of the Chief Health Officer.
- 4 An isolation period is calculated as follows:
- (a) the period starts when the person:
    - (i) submits to or administers the approved COVID-19 testing procedure that resulted in the positive result; or
    - (ii) is notified by an authorised officer or health practitioner that the person is infected with COVID-19;
  - (b) the period ends at 12:00 noon on the last day of the period.

*Example for direction 4*

*In the case of a 7-day isolation period, a person who administers the test at 11:00 pm on 12 May 2022 must remain isolated until 12 noon on 19 May 2022.*

5 A quarantine period is calculated as follows:

(a) the period starts:

- (i) in the case of a person who is a close contact of an infected person – on the day on which the person was last in contact with the infected person while that infected person was considered to be infectious; or
- (ii) in the case of a person who is a close contact of an infected person because the person resides at the same suitable place at which the infected person is isolating – on the day when the infected person's isolation period starts in accordance with direction 4(a); or
- (iii) in the case of a person who is notified by the Chief Health Officer, a delegate of the Chief Health Officer or an authorised officer that they are a close contact – at the time specified in the notification;

(b) the period ends at 12:00 noon on the last day of the period.

*Note for direction 5(a)(i)*

*If a person is infected with COVID-19 and has symptoms, the person will generally be considered to have been infectious from 2 days before the infected person's symptoms first started. If a person is infected with COVID-19 and had no symptoms prior to the person returning a positive result to an approved COVID-19 testing procedure, the infected person will generally be considered to have been infectious from 2 days before the person returned the positive result.*

*Example for direction 5*

*In the case of a 7-day quarantine period, a person who was last in contact with an infected person while infectious at 11.00 pm on 12 May 2022 must remain in quarantine until 12 noon on 19 May 2022.*

6 A place is a **suitable place** for isolation or quarantine for a person if the place:

- (a) is a residence, a room, a hostel, an apartment or a unit in commercial visitor accommodation or a hospital; and
- (b) is capable of accommodating the person for the person's isolation period or quarantine period; and

(c) has a particular attribute or has access to a particular facility determined by me.

7 For direction 6, a place may be a suitable place for isolation or quarantine for a person even if another person will reside at or occupy that place in the course of the person's isolation period or quarantine period.

*Note for direction 7*

*Depending on the circumstances, any other person who resides at or occupies a suitable place at which an infected person is isolating may be a close contact of the infected person under direction 14 and required to quarantine under direction 17.*

8 These Directions prevail to the extent of any inconsistency with COVID-19 Directions (No. 49) 2022, as amended from time to time, or any subsequent Directions that replace and substantially correspond to those Directions.

9 If these Directions are inconsistent with an advice, order or notice under the *Notifiable Diseases Act 1981*, the advice, order or notice prevails to the extent of the inconsistency.

*Example for direction 9*

*A person may be ordered under the Notifiable Diseases Act 1981 to isolate for longer than the isolation period or to undertake a specific course of medical treatment.*

10 A police officer or an authorised officer may:

- (a) request a person who is not wearing a face mask as required by these Directions to state the person's reason for not doing so; and
- (b) if the person claims to have a physical or mental health illness or condition, or a disability, that makes wearing a face mask unsuitable – require the person to produce evidence to support that claim.

## **Part 2      Infected persons**

11 A person is considered to be ***infected*** and must isolate in accordance with direction 12 if the person:

- (a) returns a positive result to an approved COVID-19 testing procedure; or

- (b) is notified by an authorised officer or health practitioner that the person is infected with COVID-19.
- 12 An infected person must travel directly to a suitable place for isolation and remain isolated in that place for the following isolation period or any longer period required under direction 35:
- (a) if the infected person has no symptoms of COVID-19 on the 7th day of the person's isolation – 7 days;
  - (b) if the infected person has symptoms of COVID-19 on the 7th day of the person's isolation – until the symptoms have resolved or a medical practitioner specifies in writing that the person is no longer infectious.
- 13 Despite direction 12:
- (a) an infected person who is a child may travel between the premises of the child's parents, or persons responsible for the child, during the child's isolation period if both premises are suitable places; and
  - (b) if an infected person in isolation is a parent of, or is responsible for, a child the infected person may leave their suitable place in order to drop off or pick up the child:
    - (i) at the premises of another parent or person responsible for the child; and
    - (ii) in the case of a child who is not required to isolate or quarantine, at any other place.

*Example for direction 13(a)*

*If a child is required to isolate for 7 days, the child may isolate for 3 days at the residence of the first parent and for 4 days at the residence of the second parent.*

*Note for direction 13(a)*

*A formal custody arrangement is not required to be in place in relation to the child.*

## Part 3 Close contacts

### Division 1 General matters

14 Subject to directions 15 and 16, a person is a **close contact** of an infected person and must quarantine in accordance with direction 17 if the person:

- (a) resides with or stays overnight in the same premises as an infected person who is infectious; or
- (b) is in close contact with an infected person for continuous 4 hours or more while indoors with the infected person who is infectious; or
- (c) is notified by Chief Health Officer, a delegate of the Chief Health Officer or an authorised officer that the person is a close contact of an infected person.

*Examples for direction 14(b)*

- 1 *Friends who have face to face contact at an indoor dinner party.*
- 2 *Workers who attend an all-day office workshop together in a conference room.*
- 3 *People travelling together in a car.*

15 For 12 weeks after completing an isolation period, a formerly infected person is not:

- (a) a close contact of another infected person; or
- (b) required to submit to or self-administer an approved COVID-19 testing procedure under these Directions or any other COVID-19 Directions.

16 A person in quarantine is not a close contact of an another person if:

- (a) the other person resides in the same premises as the person in quarantine; and
- (b) the other person becomes infected while the person is in quarantine; and

- (c) the person is in quarantine because of contact with another resident of the premises who was infected.

*Example for direction 16*

*If a person (the **quarantined person**) is a close contact of an infected person (the **first infected person**) because the quarantined person resides in the same residence as the first infected person and subsequently another person who also resides in that residence becomes infected (the **second infected person**) during the quarantined person's quarantine period, the quarantined person is not a close contact of the second infected person.*

- 17 A close contact must travel directly to a suitable place for quarantine and remain quarantined in that place for the following quarantine period:
  - (a) if the close contact has no symptoms of COVID-19 and:
    - (i) is vaccinated or is not more than the age to attend grade 12 – 0 days (no quarantine period);
    - (ii) is not vaccinated and is more than the age to attend grade 12 – 7 days;
  - (b) if the close contact has symptoms of COVID-19 – until the symptoms have resolved or a medical practitioner specifies in writing that the symptoms are unrelated to COVID-19;
  - (c) if quarantine is required under direction 35 – any longer period required under that direction.

*Note for direction 17*

*Part 2 applies to a person who returns a positive result to an approved COVID-19 testing procedure.*

- 18 Despite direction 17, if a close contact in quarantine is a parent of, or is responsible for, a child the close contact may leave their suitable place in order to drop off or pick up the child:
  - (a) at the premises of another parent or person responsible for the child; and
  - (b) in the case of a child who is not required to isolate or quarantine, at any other place.

- 19 Despite direction 17, a close contact in quarantine may, for no more than one hour in total per day, leave their suitable place for the purpose of obtaining food if:
- (a) there is no other means by which the close contact can obtain food without leaving the suitable place; and
  - (b) the close contact, or any other close contact who is also in quarantine at the same suitable place, has not left the suitable place to obtain food in accordance with this direction within the previous 24 hours; and
  - (c) the close contact complies with direction 32.

*Note for direction 19(b)*

*If there is more than one person who is a close contact in quarantine at the same suitable place, only one close contact may leave the suitable place to obtain food within a 24 hour period.*

## **Division 2      Testing and checking for symptoms**

- 20 A close contact must submit to or self-administer an approved COVID-19 testing procedure as follows:
- (a) within 3 days of becoming a close contact; and
  - (b) on the 6th day after becoming a close contact; and
  - (c) if the close contact has symptoms of COVID-19 – immediately after the symptoms start.

*Note for direction 20*

*The mandatory reporting of positive rapid antigen test results is required under COVID-19 Directions (No. 16) 2022. If a close contact tests positive, they are an infected person – see Part 2.*

- 21 A person must regularly check for symptoms of COVID-19 for 7 days after becoming a close contact.
- 22 If a person self-administers a rapid antigen test under these Directions, the person must:
- (a) use a rapid antigen test approved by the Therapeutic Goods Administration; and

- (b) follow the manufacturer's instructions on storage and administration of the rapid antigen test; and
- (c) after administering the rapid antigen test, retain photos of the test result, the packaging displaying the batch number and a document identifying person.

*Example for direction 22(c)*

*A photo of the person's driver's licence or other form of identification.*

*Note for direction 22*

*The mandatory reporting of positive rapid antigen test results is required under COVID-19 Directions (No. 16) 2022. If a close contact tests positive, they are an infected person – see Part 2.*

### **Division 3 Requirements for close contacts with 0-day quarantine periods**

23 This Division applies to a person who is a close contact with a 0-day quarantine period under direction 17(a)(i), for 7 days after the person becomes a close contact.

24 The person must not enter a high risk place, unless:

- (a) the person resides in the high risk place; or
- (b) subject to direction 25, the person works in the high risk place; or
- (c) the person requires entry to the high risk place to access a service.

*Examples for direction 24(c)*

1 *The person requires entry to a hospital due to an urgent need for medical treatment.*

2 *The person requires entry to a shelter due to experiencing homelessness or family violence.*

25 If the person is an essential worker and the person is required to attend a high risk place to perform their essential work, the person may perform work at the high risk place if the person:

- (a) submits to or self-administers a rapid antigen COVID-19 testing procedure, and returns a negative result, before entering the high risk place for the first time each day; and
- (b) complies with the requirements of direction 32 while at the high risk place.

- 26 The person must wear a face mask securely over the person's nose and mouth while the person is outside the premises where the person resides.
- 27 Despite direction 26, the person is not required to wear a mask if the person:
- (a) is inside a residence; or
  - (b) is a child who is not more than the age to attend grade 6; or
  - (c) has a physical or mental health illness or condition, or a disability, that makes wearing a face mask unsuitable; or
  - (d) is engaged in exercise or is swimming; or
  - (e) is communicating with a person who is hearing impaired and visibility of the person's mouth is essential; or
  - (f) is inside a private vehicle or vessel, that is not being used for commercial purposes, or is alone in a commercial vehicle or vessel; or
  - (g) is eating or drinking; or
  - (h) is asked to remove the face mask to ascertain the person's identity; or
  - (i) is requested by a health practitioner to remove the face mask in order to enable the practitioner to administer treatment to the person; or
  - (j) is a teacher, educator or child care worker in a school or child care facility who removes it for the purpose of teaching or child care activities; or
  - (k) must remove it in an emergency; or
  - (l) is outdoors and more than 1.5m away from another person who does not reside at the same premises as the person.
- 28 The person must notify their employer and any educational facility the person attends that they are a close contact, before attending the premises of the employer or facility.

## **Part 4 Rules during isolation and quarantine**

- 29 A child who is required to isolate must do so where at least one parent or responsible adult will be responsible for the child during the isolation period.
- 30 A person in isolation or quarantine must not leave the person's suitable place except:
- (a) for urgent medical purposes, including obtaining rapid antigen tests, medical supplies, receiving medical care or being tested or assessed for infection with COVID-19; or
  - (b) in an emergency; or
  - (c) in accordance with direction 13, 18 or 19; or
  - (d) in order to leave the Territory; or
  - (e) for a compassionate purpose in accordance with a temporary exemption given by me.

*Example for direction 30(e)*

*A person wishes to attend the funeral of a relative or close friend.*

- 31 A person in isolation or quarantine must not permit any other person to enter the person's suitable place unless the other person:
- (a) usually resides at the place; or
  - (b) in the case of quarantine only – is being quarantined at the same time; or
  - (c) is entering for urgent medical purposes, including delivering medical supplies, providing medical care or testing or assessing for infection with COVID-19; or
  - (d) is entering because of an emergency or another urgent reason.

*Note for direction 31*

*A person isolating or quarantining in a suitable place may be subject to further specific instructions from an authorised officer regarding the person's behaviour or the manner in which the person is to isolate or quarantine. See section 53 of the Act.*

32 A person who leaves the person's suitable place for a reason specified in direction 30 must, while outside the suitable place:

- (a) wear a face mask securely over the person's nose and mouth; and
- (b) stay at least 1.5 m away from other people where possible.

*Note for direction 32(b)*

*It may not be possible for a person to stay 1.5 m away from other people if, for example:*

- (a) *the person must approach a health practitioner in order to receive treatment;*
- (b) *the person must approach another person in order to receive assistance in an emergency.*

33 Despite direction 32, a person is not required to wear a face mask if the person:

- (a) is eating or drinking; or
- (b) is asked to remove the face mask to ascertain the person's identity;  
or
- (c) is requested by a health practitioner to remove the face mask in order to enable the practitioner to administer treatment to the person; or
- (d) must remove it in an emergency.

34 Despite directions 12 and 17, an infected person or a close contact must isolate or quarantine in a place specified by the Chief Health Officer or an authorised officer, if satisfied that:

- (a) the person does not have a suitable place to isolate or quarantine;  
or
- (b) the person requires treatment or supervision.

35 Despite directions 12 and 17, the Chief Health Officer or a delegate of the Chief Health Officer may extend the isolation period or quarantine period for a person and require them to submit to testing for COVID-19 infection if satisfied that the person is infected or at risk of causing others to be infected.

## Part 5 Requirements after isolation

36 This Part applies to a person who was in isolation under these Directions or under COVID-19 Directions (No. 54) 2022 for the 7-day period after the end of the person's isolation period.

37 The person must not enter a high risk place unless:

- (a) the person resides in the high risk place; or
- (b) the person works in the high risk place; or
- (c) the person requires entry to the high risk place to access a service.

*Examples for direction 37(c)*

- 1 *The person requires entry to a hospital due to an urgent need for medical treatment.*
- 2 *The person requires entry to a shelter due to experiencing homelessness or family violence.*

38 The person must wear a face mask securely over the person's nose and mouth while the person is outside the premises where the person resides.

39 The person is not required to wear a mask if the person:

- (a) is inside a residence; or
- (b) is a child who is not more than the age to attend grade 6; or
- (c) has a physical or mental health illness or condition, or a disability, that makes wearing a face mask unsuitable; or
- (d) is engaged in exercise or is swimming; or
- (e) is communicating with a person who is hearing impaired and visibility of the person's mouth is essential; or
- (f) is inside a private vehicle or vessel, that is not being used for commercial purposes, or is alone in a commercial vehicle or vessel; or
- (g) is eating or drinking; or

- (h) is asked to remove the face mask to ascertain the person's identity;  
or
- (i) is requested by a health practitioner to remove the face mask in order to enable the practitioner to administer treatment to the person; or
- (j) is a teacher, educator or child care worker in a school or child care facility who removes it for the purpose of teaching or child care activities; or
- (k) must remove it in an emergency; or
- (l) is outdoors and more than 1.5m away from another person who does not reside at the same premises as the person.

## **Part 6            Revocation and transitional matters**

40    COVID-19 Directions (No. 54) 2022 are revoked.

41    Any person who is in isolation or quarantine under COVID-19 Directions (No. 54) 2022 when these Directions take effect:

- (a)    is subject to these Directions if the person would have any isolation period or quarantine period remaining under these Directions, as calculated in accordance with these Directions, from the day the person entered isolation or quarantine under those Directions; or
- (b)    is released from isolation or quarantine if the person would have no isolation period or quarantine period remaining under these Directions, as calculated in accordance with these Directions, from the day the person entered isolation or quarantine under those Directions.

### *Notes for COVID-19 Directions*

- 1    *Section 56 of the Act provides for an offence for failing to comply with a direction given by the Chief Health Officer under section 52(3) of the Act.*
- 2    *The maximum penalty for the offence is 400 penalty units.*
- 3    *A person is not guilty of the offence if the person has a reasonable excuse.*

- 4 *An infringement notice may be given for failing to comply with these Directions with a fine equal to 32 penalty units for an individual and 160 penalty units for a body corporate.*

3 A person who provides any of the following health services is an essential worker for these Directions:

- (a) emergency medical consulting, procedures and surgery undertaken for the investigation, diagnosis and management of conditions where failure to do so expediently and safely will lead to any of the following outcomes:
  - (i) loss of life;
  - (ii) loss of limb;
  - (iii) permanent disability;
- (b) non-emergency but urgent medical consulting, procedures and surgery undertaken for the investigation, diagnosis and management of conditions where failure to do so in a clinically appropriate timeframe will lead to a predictable and evidence-based outcome as follows:

- (i) loss of life where appropriate health intervention would otherwise have prevented this;
  - (ii) permanent disability where appropriate health intervention would otherwise have prevented this;
  - (iii) where clinical evidence supports an increased risk of a type referred to in the above points should appropriate health intervention be significantly delayed;
- (c) emergency and licensed non-emergency patient transport;
  - (d) any health services provided under the auspices of a hospital, urgent care centre or similar service including remote health clinics;
  - (e) any health services provided by a general practitioner;

- 4 To avoid doubt, a person who provides the following health services is not an essential worker for these Directions:
- (a) cosmetic surgery or procedures that are elective and do not address significant medical conditions;
  - (b) non-urgent elective surgery.
- 5 An Aboriginal person who leads or conducts cultural rituals or ceremonies is an essential worker for these Directions.
- 6 In this Schedule, **critical clinical care** means:
- (a) to prevent a significant change or deterioration in functional independence which would result in an escalation of care needs; or
  - (b) to provide assessment and diagnostic services to clients or patients for whom, if care is delayed, it is likely to result in adverse health outcomes (including access to diagnostic imaging services or assessment for prescription of assistive equipment and technology); or
  - (c) to provide services that are essential as part of a broader plan of care with a medical practitioner; or
  - (d) to provide services that are part of a conservative management plan to avoid or delay elective surgery (as agreed with the treating team); or
  - (e) to provide services immediately following elective surgery that prevent secondary complications or aid functional recovery (as agreed with the treating team).

*Example for definition **critical clinical care**, paragraph (a)*

*An increase in frequency of treatment needed, an increased need for prescription medication due to a significant increase in pain, requirement for specialist input or review, an increase in care needs, or a substantial increase to anticipated recovery*

*time associated with a delay in receiving services.*

*Example for definition **critical clinical care**, paragraph (b)*

*Fitting a brace post-surgery.*
