

Getting the COVID-19 vaccine

What you should know

YES
vaccine

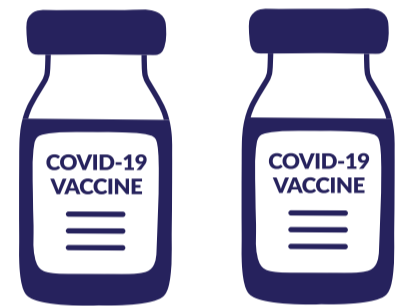

There are new vaccines for COVID-19.

5+

Only people over 5 years can have the vaccine.

2X vaccine

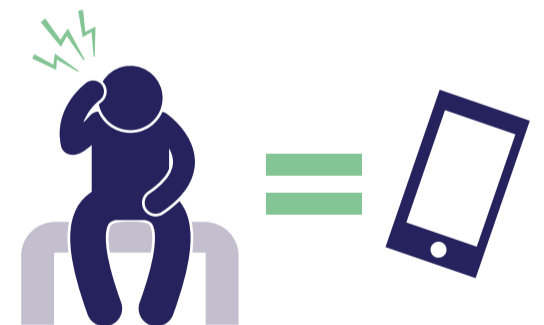

You must have two doses of the same COVID-19 vaccine to ensure the best protection.

Health centre nurses will give you the vaccine.

The vaccine will protect you and your community from COVID-19.

It's important if you or your family feel sick to ring the health centre.

If you need an interpreter when reading this, please ask for a staff member.
